## ZeptoMetrix

### SAFETY DATA SHEET (SDS)

#### 1. Product Identification:

Product Name:	NATtrol™ MRSA/SA Negative Control
Catalog Number:	MDZ060
Product ID Number (CAS #)	No Data Available
Intended use of the product:	Class 1 exempt, unassayed, in vitro, diagnostic external run controls intended for use with
•	qualitative molecular assays
ZeptoMetrix LLC	
25 Kenwood Circle Franklin MA 02038	
Phone: (508)553-5800	
Fax: (508)553-5899	
Emergency telephone number:	1-800-274-5487 (US Toll Free) Monday-Friday 8:15am – 4:30pm EST
2. <u>Hazard(s) Identification:</u>	
Classification of the substance or chemication	al: No Data Available
Classification: Not a hazardous	s substance or mixture
Hazard	
Pictograms	
Tiolograma	
Signal word:	Warning
Hazard statements:	Potential Biohazard, Use Universal Precautions
	May present unknown hazards and should be handled as if capable of transmitting infectious
Precautionary statement:	agents.
Other hazards:	Contains material derived from human sources and may be considered a biohazard and/or Regulated Medical Waste in your state. Check your Local Environmental Regulations
Unknown acute toxicity:	No Data Available
3. Composition/Information on Ingr	
Component Name	CAS Number Concentration Classification
Sodium Azide*	26628-22-8 ≤ 0.09% N/A
*Below reportable limits	
Delow reportable minus	
4. <u>First Aid/Emergency Measures</u> :	
Description of first aid measures	
	If you feel unwell, seek medical advice
First-aid measures general:	
First-aid measures general: First-aid measures after Eye Contact:	Rinse cautiously with copious amounts of water for several minutes.
First-aid measures general:	
First-aid measures general: First-aid measures after Eye Contact: First-aid measures after Skin Contact:	Rinse cautiously with copious amounts of water for several minutes. Remove contaminated clothing and immediately rinse skin with copious amounts of water followed by washing with soap and copious amounts of water.
First-aid measures general: First-aid measures after Eye Contact:	Rinse cautiously with copious amounts of water for several minutes. Remove contaminated clothing and immediately rinse skin with copious amounts of water followed by washing with soap and copious amounts of water. If the person is unconscious, seek emergency medical attention: never give anything by mouth to
First-aid measures general: First-aid measures after Eye Contact: First-aid measures after Skin Contact:	Rinse cautiously with copious amounts of water for several minutes. Remove contaminated clothing and immediately rinse skin with copious amounts of water followed by washing with soap and copious amounts of water. If the person is unconscious, seek emergency medical attention: never give anything by mouth to an unconscious person. If the person is conscious, wash mouth out with copious amounts of
First-aid measures general: First-aid measures after Eye Contact: First-aid measures after Skin Contact: First-aid measures after Ingestion:	Rinse cautiously with copious amounts of water for several minutes. Remove contaminated clothing and immediately rinse skin with copious amounts of water followed by washing with soap and copious amounts of water. If the person is unconscious, seek emergency medical attention: never give anything by mouth to an unconscious person. If the person is conscious, wash mouth out with copious amounts of water and call a physician. Do not induce vomiting unless directed to do so by a physician.
First-aid measures general: First-aid measures after Eye Contact: First-aid measures after Skin Contact:	Rinse cautiously with copious amounts of water for several minutes. Remove contaminated clothing and immediately rinse skin with copious amounts of water followed by washing with soap and copious amounts of water. If the person is unconscious, seek emergency medical attention: never give anything by mouth to an unconscious person. If the person is conscious, wash mouth out with copious amounts of water and call a physician. Do not induce vomiting unless directed to do so by a physician. If person is unconscious, seek emergency medical attention. If person is conscious, remove to
First-aid measures general: First-aid measures after Eye Contact: First-aid measures after Skin Contact: First-aid measures after Ingestion:	Rinse cautiously with copious amounts of water for several minutes. Remove contaminated clothing and immediately rinse skin with copious amounts of water followed by washing with soap and copious amounts of water. If the person is unconscious, seek emergency medical attention: never give anything by mouth to an unconscious person. If the person is conscious, wash mouth out with copious amounts of water and call a physician. Do not induce vomiting unless directed to do so by a physician.
First-aid measures general: First-aid measures after Eye Contact: First-aid measures after Skin Contact: First-aid measures after Ingestion: First-aid measures after Inhalation:	Rinse cautiously with copious amounts of water for several minutes. Remove contaminated clothing and immediately rinse skin with copious amounts of water followed by washing with soap and copious amounts of water. If the person is unconscious, seek emergency medical attention: never give anything by mouth to an unconscious person. If the person is conscious, wash mouth out with copious amounts of water and call a physician. Do not induce vomiting unless directed to do so by a physician. If person is unconscious, seek emergency medical attention. If person is conscious, remove to fresh air and call a physician.
First-aid measures general: First-aid measures after Eye Contact: First-aid measures after Skin Contact: First-aid measures after Ingestion: First-aid measures after Inhalation: Most important symptoms and effects	Rinse cautiously with copious amounts of water for several minutes. Remove contaminated clothing and immediately rinse skin with copious amounts of water followed by washing with soap and copious amounts of water. If the person is unconscious, seek emergency medical attention: never give anything by mouth to an unconscious person. If the person is conscious, wash mouth out with copious amounts of water and call a physician. Do not induce vomiting unless directed to do so by a physician. If person is unconscious, seek emergency medical attention. If person is conscious, remove to fresh air and call a physician.
First-aid measures general: First-aid measures after Eye Contact: First-aid measures after Skin Contact: First-aid measures after Ingestion: First-aid measures after Inhalation: <b>Most important symptoms and effect</b> : Symptoms/injuries after Eye Contact:	Rinse cautiously with copious amounts of water for several minutes. Remove contaminated clothing and immediately rinse skin with copious amounts of water followed by washing with soap and copious amounts of water. If the person is unconscious, seek emergency medical attention: never give anything by mouth to an unconscious person. If the person is conscious, wash mouth out with copious amounts of water and call a physician. Do not induce vomiting unless directed to do so by a physician. If person is unconscious, seek emergency medical attention. If person is conscious, remove to fresh air and call a physician. <b>s, both acute and delayed</b> Seek medical assistance if required.
First-aid measures general: First-aid measures after Eye Contact: First-aid measures after Skin Contact: First-aid measures after Ingestion: First-aid measures after Inhalation: <b>Most important symptoms and effect:</b> Symptoms/injuries after Eye Contact: Symptoms/injuries after Skin Contact:	Rinse cautiously with copious amounts of water for several minutes. Remove contaminated clothing and immediately rinse skin with copious amounts of water followed by washing with soap and copious amounts of water. If the person is unconscious, seek emergency medical attention: never give anything by mouth to an unconscious person. If the person is conscious, wash mouth out with copious amounts of water and call a physician. Do not induce vomiting unless directed to do so by a physician. If person is unconscious, seek emergency medical attention. If person is conscious, remove to fresh air and call a physician. <b>s, both acute and delayed</b> Seek medical assistance if required. Seek medical assistance if required.

Seek medical assistance if required.

#### 5. Fire and Explosion Measures:

Extinguishing Media	
Suitable extinguishing media:	Use an extinguishing agent suitable for the surrounding area.
Unsuitable extinguishing media:	Use an extinguishing agent suitable for the surrounding area.
Special hazards arising from the s	ubstance or mixture
Fire hazard:	No data available
Explosion hazard:	No data available
Reactivity:	No data available
Advice for firefighters	
Firefighting instructions:	Exercise caution when fighting a fire.
Protection during firefighting:	Firefighters should wear protective gear. Do not enter fire area without proper protective
5 5 5	equipment, including respiratory protection.
. Accidental Release Measures:	
Personal precautions, protective e	quipment and emergency procedures
Personal precautions, protective e General measures:	quipment and emergency procedures
Personal precautions, protective e General measures: For non-emergency personnel	quipment and emergency procedures Use appropriate personal protective equipment (PPE) and appropriate laboratory procedures .
Personal precautions, protective e	quipment and emergency procedures
Personal precautions, protective e General measures: For non-emergency personnel Protective equipment: Emergency procedures:	<b>quipment and emergency procedures</b> Use appropriate personal protective equipment (PPE) and appropriate laboratory procedures . Use appropriate personal protective equipment (PPE).
Personal precautions, protective e General measures: For non-emergency personnel Protective equipment: Emergency procedures: For emergency responders	quipment and emergency procedures         Use appropriate personal protective equipment (PPE) and appropriate laboratory procedures .         Use appropriate personal protective equipment (PPE).         Use appropriate emergency procedures.
General measures: <b>For non-emergency personnel</b> Protective equipment: Emergency procedures:	<b>quipment and emergency procedures</b> Use appropriate personal protective equipment (PPE) and appropriate laboratory procedures . Use appropriate personal protective equipment (PPE).
Personal precautions, protective e General measures: For non-emergency personnel Protective equipment: Emergency procedures: For emergency responders Protective equipment: Emergency procedures:	quipment and emergency procedures         Use appropriate personal protective equipment (PPE) and appropriate laboratory procedures .         Use appropriate personal protective equipment (PPE).         Use appropriate emergency procedures.         Use appropriate personal protective equipment (PPE).         Use appropriate emergency procedures.         Use appropriate personal protective equipment (PPE).         Use appropriate personal protective equipment (PPE).         Use appropriate personal protective equipment (PPE).         Use appropriate personal protective equipment (PPE).
Personal precautions, protective e General measures: For non-emergency personnel Protective equipment: Emergency procedures: For emergency responders Protective equipment:	quipment and emergency procedures         Use appropriate personal protective equipment (PPE) and appropriate laboratory procedures .         Use appropriate personal protective equipment (PPE).         Use appropriate emergency procedures.         Use appropriate personal protective equipment (PPE).         Use appropriate emergency procedures.         Use appropriate personal protective equipment (PPE).         Use appropriate personal protective equipment (PPE).         Use appropriate personal protective equipment (PPE).         Use appropriate personal protective equipment (PPE).

# Precautions for safe handling Handle in accordance with good laboratory practices and Biosafety Level 2 safety procedures. Use Universal Precautions. Use Universal Precautions. Conditions for safe storage, including any incompatibilities Storage conditions: Incompatible products: No data available No data available No data available Storage: Recommended storage temperature 2-8°C (36-46°F).

#### 8. Exposure Controls and Personal Protection:

#### 9. Physical and Chemical Properties:

Information on basic physical and chemi	cal properties	
Physical State:	Liquid	
Appearance/color:	Clear, pale amber solution	
Odor:	No data available	
Odor threshold:	No data available	
pH:	No data available	
Melting point/freezing point:	No data available	
Boiling point:	No data available	
Flash point:	No data available	
Evaporation rate:	No data available	
Flammability:	No data available	
Upper/lower flammability or explosive limits:	No data available	
Vapor pressure:	No data available	
Vapor density:	No data available	
Relative density:	No data available	
Solubility(ies):	No data available	
Partition coefficient:	No data available	
Auto-ignition temperature:	No data available	
Decomposition temperature:	No data available	
Viscosity:	No data available	
Other information:	No data available	

#### 10. Stability and Reactivity:

Reactivity:	No data available
Chemical stability:	Stable under recommended storage conditions.
Possibility of hazardous reactions:	No data available
Conditions to avoid:	No data available
Incompatible materials:	No data available
Hazardous decomposition products:	No data available
11. Toxicological Information:	
<u> </u>	

#### 11. Toxicological Information:

Information on toxicological effects	
Skin corrosion/irritation:	May cause mild irritation.
Eye damage/irritation:	May cause mild irritation.
Respiratory damage/irritation:	May cause mild irritation.
Ingestion damage/irritation:	May cause mild irritation.
Specific target organ toxicity (single exposure): Specific target organ toxicity (repeated exposure): Numerical measure of toxicity:	No data available No data available No data available
Symptoms/injuries after skin contact:	No data available
Symptoms/injuries after eye contact:	No data available
Symptoms/injuries after inhalation:	No data available
Symptoms/injuries after ingestion:	No data available

#### 12. Ecological Information:

Ecotoxicity:	The product does not contain significant quantities of ingredients that are environmentally toxic.	
Persistence and degradability:	The product is unlikely to persist in the environment.	
Bioaccumulative potential:	No data available	
Mobility in soil:	No data available	
Other adverse effects:	No data available	

#### 13. Disposal Information:

Waste disposal recommendations:         Dispose of material in accordance to local, State and Federal waste disposal regulations concerning potentially biohazardous waste.
---

#### 14. Transport Information:

In accordance with IATA Regulations		
UN number	No data available	
UN proper shipping name	No data available	
Department of Transportation (DOT)	No data available	
Hazard Classes	No data available	
Hazard labels (DOT)	No data available	
	<b>N</b> I 17 111	
Packing group (DOT)	No data available	
Environmental hazards	No data available No data available	
Transport in bulk Special precautions	No data available	
Opecial precaditoria		
15. <u>Regulatory Information</u> :		
SARA 311/312: Hazard categories for SARA Section 311/312 Reporting	No data available	
Canadian WHMIS Classification	No data available	
EU Classification (90/492/EE)	No data available	
EU Risk and Safety Phrases	No data available	
California Proposition 65: This product contains the	No data available	
following substances known to the State of California		
to cause Reproductive Toxicity (birth defects).		
16. Other Information:		

Preparation Date

J. Bennett, 05/27/2021
